### PRODUCT DESCRIPTION:

Introducing UniClean America CHLORINE TABLETS, your reliable solution for a wide range of disinfection needs. Composed of 70% calcium hypochlorite, these tablets provide a steady and consistent release of chlorine, reducing the need for frequent applications. Designed to dissolve gradually, they ensure long-lasting effectiveness. Slightly alkaline when mixed with water, they release free chlorine in acidic conditions, making them perfect for disinfecting potable water supplies and treating sewage systems. Trust UniClean America CHLORINE TABLETS for dependable and efficient disinfection.

### DIRECTION FOR USE

#### TREATMENT OF SEWAGE SYSTEMS

For effective sanitation, add the tablets to the sewage system to maintain a residual chlorine level between 10 to 20 PPM. The recommended tablet size is 200 grams (e.g., Sanuril 115 or Hichlor type / Trichlorineisocianuric Acid 90%).

#### SWIMMING POOL WATER TREATMENT
