

UniClean America

Leader in Green and ECO-Friendly Marine Chemicals

Houston@unicleanamerica.com

www.unicleanamerica.com

+1 8324906135

UniClean America Is A Leading USA-based Manufacturer Of High-performance Marine And Tank Cleaning Chemicals, Test Kits, And Eco-friendly DeepTech Specialty Solutions. With Dedicated Branches In Houston (USA), Ajman (UAE) Our Local Office *Q Concord Marine*, And UniClean America Arabia Dammam (KSA), We Serve Ports Worldwide Through Our Strategically Located Warehouses And Trusted Partners.

Our Wide Range Includes Marine Chemicals Like Water Treatment Solutions For Boilers, Cooling Systems, And RO Units, Fuel Oil Treatments, Degreasers, Solvent Cleaners, Rig Wash, Oil Spill Dispersants, Acidic Cleaners, And Electro Cleaners. In Addition Of Tank Cleaning And Cargo Cleaning Chemicals, Reliable Metal Treatment Solutions, Easy-to-use Test Kits For Fuel And Water Analysis, And Highly Effective Detergents For All Your Cleaning Needs.

What Makes Us Proud Is Our Special Range Of Green Specialty Chemicals –All Crafted Using The Latest Eco-friendly And Biodegradable Chemistry Wizardry To Keep Your Team, Equipment, And The Environment Safe.

About Us

EXCELLENT QUALITY
ENVIROMENTAL ECOFRIENDLY

Our Vision and Mission

Vision

“To Be A Global Leader In Providing Innovative And Sustainable Cleaning Solutions For The Marine, Industrial, And Commercial Sectors, Driving Operational Excellence While Preserving The Environment For Future Generations.”

Mission

“At UniClean America, Our Mission Is To Deliver High-quality, Eco-friendly Cleaning Products And Services Tailored To The Unique Needs Of Our Clients. We Strive To Exceed Expectations By Integrating Advanced Technologies, Fostering Customer-centric Innovation, And Maintaining A Commitment To Sustainability And Safety.”

EXCELLENT QUALITY
ENVIRONMENTAL ECOFRIENDLY

Goals & Objectives

Growth

Strengthen Our Footprint Across Key International Markets With **Reliable Distribution, Distributers And Partnerships.**

Customer Satisfaction

Build Long-term Relationships By Consistently Exceeding Client Expectations In **Quality, Safety, And Performance.**

Promote Environmental Responsibility

Deliver Innovative & Sustainable Solutions – Provide **Eco-conscious** Marine And Industrial Chemicals Aligned With Global Environmental Standards.

Why Choose Us?

"Empowering Marine Operations With Innovation, Sustainability, And Trusted Service."

Specialized
Marine Solutions

TOLL BLENDING

Custom Chemical Blending — Made to Fit Your Needs

From Private Label To Specialized Formulations, UniClean America Offers Complete Toll Blending Services For Marine And Industrial Chemicals, Delivering Quality Products Under Your Brand.

Our Range

DEEPTeCH SPECIALITY SOLUTIONS

Specialty Green Chemical Solutions Engineered For Advanced Marine And Industrial Applications, Covering Cleaners, Rust Treatment, Water Treatment, Fuel Additives, And Sewage Treatment. Designed To Deliver High Performance, Efficiency, And Reliability Across Critical Operations.

MARINE CHEMICALS

Marine Chemicals Formulated For Cleaning, Degreasing, Water Treatment, Fuel Oil Treatment, Rig Wash, Oil Spill Dispersants (OSD), Maintenance Cleaners, And Electro Cleaners, Formulated & Engineered In The USA.

TANK CLEANING

Tank Cleaning Chemicals Formulated For Effective Cargo Hold Cleaning And Oil Tank Cleaning Applications, Formulated & Engineered In The USA.

Our Range

PICKLING AND PASSIVATION

Pickling And Passivation Products Formulated For Cleaning, Descaling, And Protecting Stainless Steel Surfaces, Formulated & Engineered In The USA

LAB GRADE

High-purity Laboratory Reagents And Solutions For Accurate Testing, Analysis, And Verification Of Cargo Holds, Water Systems, And Onboard Operations.

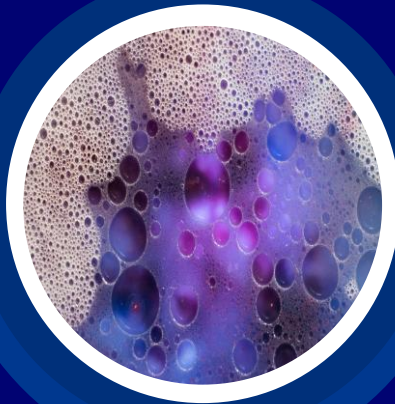

TEST KITS

Test Kits Formulated For Water Treatment, Sewage Analysis, Water-in-oil Testing, Reagent Tablets, And Bacteria DIP-SLIDES, Formulated & Engineered In The USA.

Our Range

DETERGENTS

Detergent products formulated for effective cleaning, degreasing, and sanitizing applications, formulated & engineered in the USA.

GASSES

Comprehensive supply of industrial and specialty gases, including oxygen, acetylene, nitrogen, refrigerants, and calibration gases, available in disposable and refillable cylinders to support marine and industrial applications

RAW MATERIALS

A wide range of essential raw materials including acids, alkalis, and specialty chemicals, supplied in various grades for industrial use and ballast water treatment applications.

GO GREEN with UniClean America

What is our DEEPTeCH SPECIALITY SOLUTIONS ?

Powered By Advanced Research And Development In The Sophisticated U.S. Laboratories, UniClean America Leads The Way In Sustainable Marine Solutions. We Protect The Ocean, Safeguard Crew And Workers, And Replace Hazardous Marine Chemicals With **Eco-friendly Green Easy-to-use Alternatives**. Our Next Generation **Fuel, Water, Metal, Rust, And Sewage Treatment Technologies** Help You Stay Efficient, Compliant, And Environmentally Responsible Without Compromising Performance.

OUR SPECIALITY CLEANERS

Heavy Duty Water-based Biodegradable All Purpose Cleaner & Degreaser Formulated In The American Laboratory. Its Concentrated, Ecofriendly, Nonflammable, Free From Acids, Alkaline And Solvents, Used In Marine, Oilfield And Industrial .

ECOCLEAN HD

A Special Oil Dispersant Formulated Using The Latest Science Of The American Technology Which Rapidly Convert Oil-slicks Into Very Small Droplet, Hence Facilitating Biodegradation. Unlike All Others, Our Chemical's Surprisingly Nonflammable, Neutral Ph, No Solvents And Is Completely Bio-degradable

**OSD ENVIRO
CONCENTRATE**

The Only Non-caustic Alkaline Degreaser With Very Strong Cleaning Action Reducing The Number Of Cleaners To One, It Is U.S. Made Heavy Duty Bio-Degradable Alkaline Cleaner & Degreaser Which Compatible With Most Metals, Marine, Tank Cleaning, Oilfield And Industrial Applications.

MARISOL AQUABREAK

EXCELLENT QUALITY
ENVIROMENTAL ECOFRIENDLY

PICKLING AND PASSIVATION SPECIALITY

Heavy-duty Stainless-steel Cleaner Formulated To Remove Grime, Grease, Oil, Scale, Lime, And Rust In One Step, Formulated & Engineered In The USA.

**METAL CLEANER &
BRIGHTNER**

Pickling Liquid Formulated To Remove Rust, Scale, And Oxide Layers From Stainless Steel, Formulated & Engineered In The USA.

PICKLING LIQUID

Pickling Gel Formulated For Targeted Removal Of Rust And Scale On Stainless Steel, Formulated & Engineered In The USA.

**PICKLING GEL ||
PASTE**

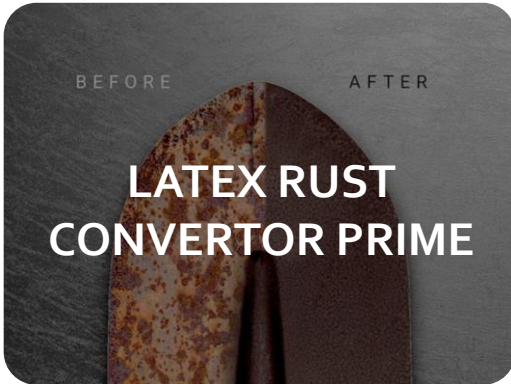

In Addition, We Have Passivation Liquid Which Is Treatment Formulated To Clean And Protect Stainless Steel Surfaces, Formulated & Engineered In The USA.

EXCELLENT QUALITY
ENVIRONMENTAL ECOFRIENDLY

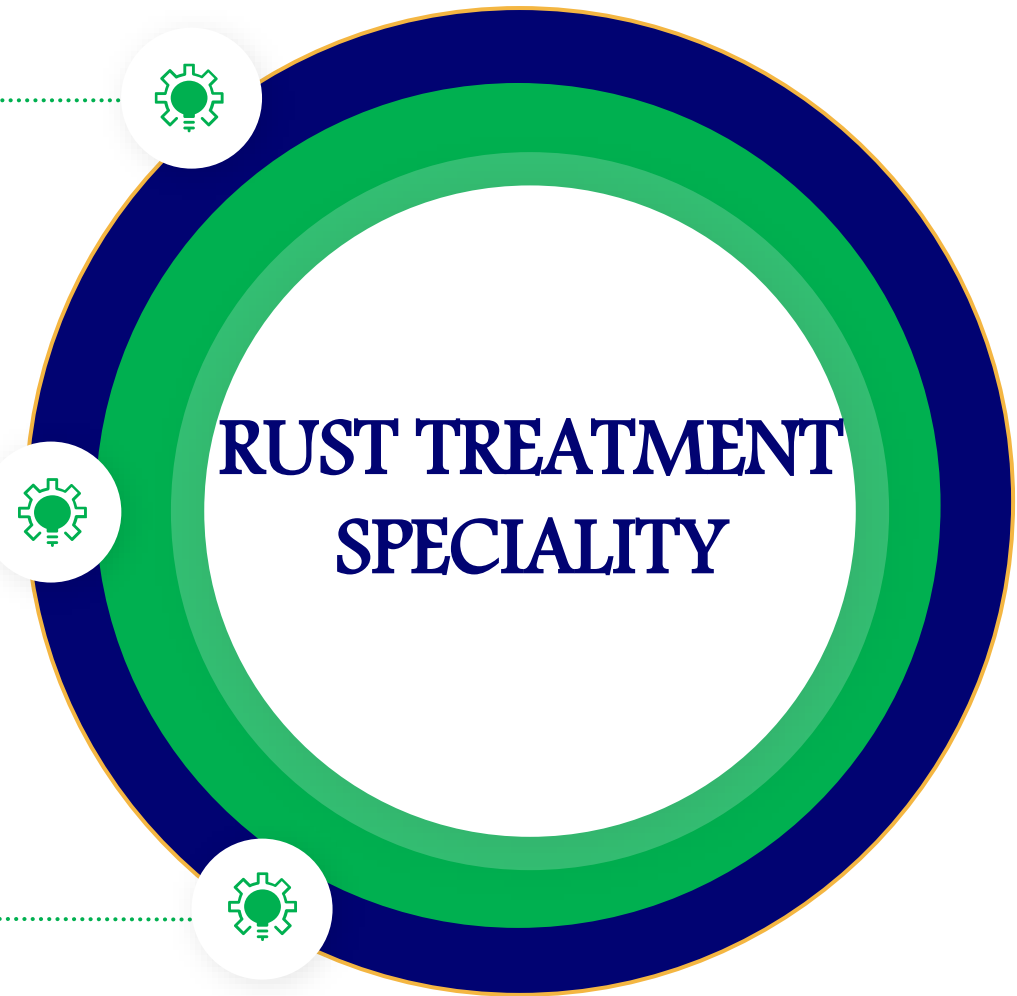

All Scale And Rust Removers Must Be Acidic? Our Formulation Made In The USA Lab Proves Them Wrong! Our Unique Non-acidic Bio-degradable Product Has No Acids, Fumes Or Smell, It Removes Rust And Scales Even Better Than Traditional Descalers! Compatible With All Metals As Not Corrosive .

U.S. Made Product Which Reacts With The Rust To Form A Stable Blue-black Inert Latex Prime Coat And Protective Layer Which Passivates And Primes The Surface Creating A Rust-preventive Layer And Enables You To Apply Paint And Coating Over It! (Traditional Rust-converters Just Turn Rust Into Ash-like Residue)

A Special American-made Bio-degradable Organic Acid, An Alternative To The Hydrochloric Acid, Formulated To Remove Rust And Scales Without The Risk Of Burns And Harmful Fumes & Acidic Smell To The User Unlike The Harsh Traditional Chemicals.

WATER TREATMENT SPECIALITY

The New U.S. Made CWT NCLT Takes Care Of Your Cooling System Using Corrosion Inhibitors And Special Polymers And Co-polymers. It Has A Unique Self-indicating Method Like No Other, Which Allows For Timely Dosages And Testing, Its Cost-effective And Reduces Labor Time!

BWT Organic Is A State-of-the-art One-shot Treatment Made Using The American Tech, Contains Special Acrylic Polymers And Is The ONLY Treatment Chemical That Creates A Rust And Corrosion Preventive Black Film On The Inside Surface That Protects It From Further Corrosion As Well!

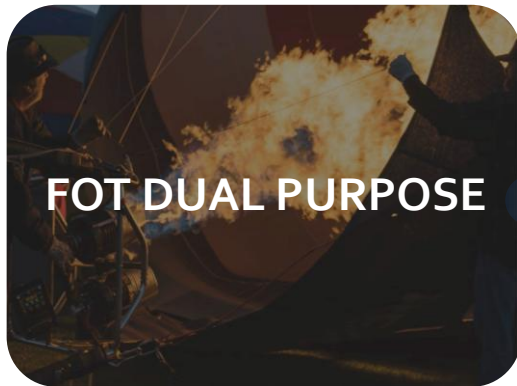

Our American Formula Offers Unparalleled Protection Against Marine Growth And Corrosion, Ensuring Your System Remains Efficient And Free From Biological Fouling. This Eco-friendly, Biodegradable Biocide Solution For Cooling System & Storage Tanks.

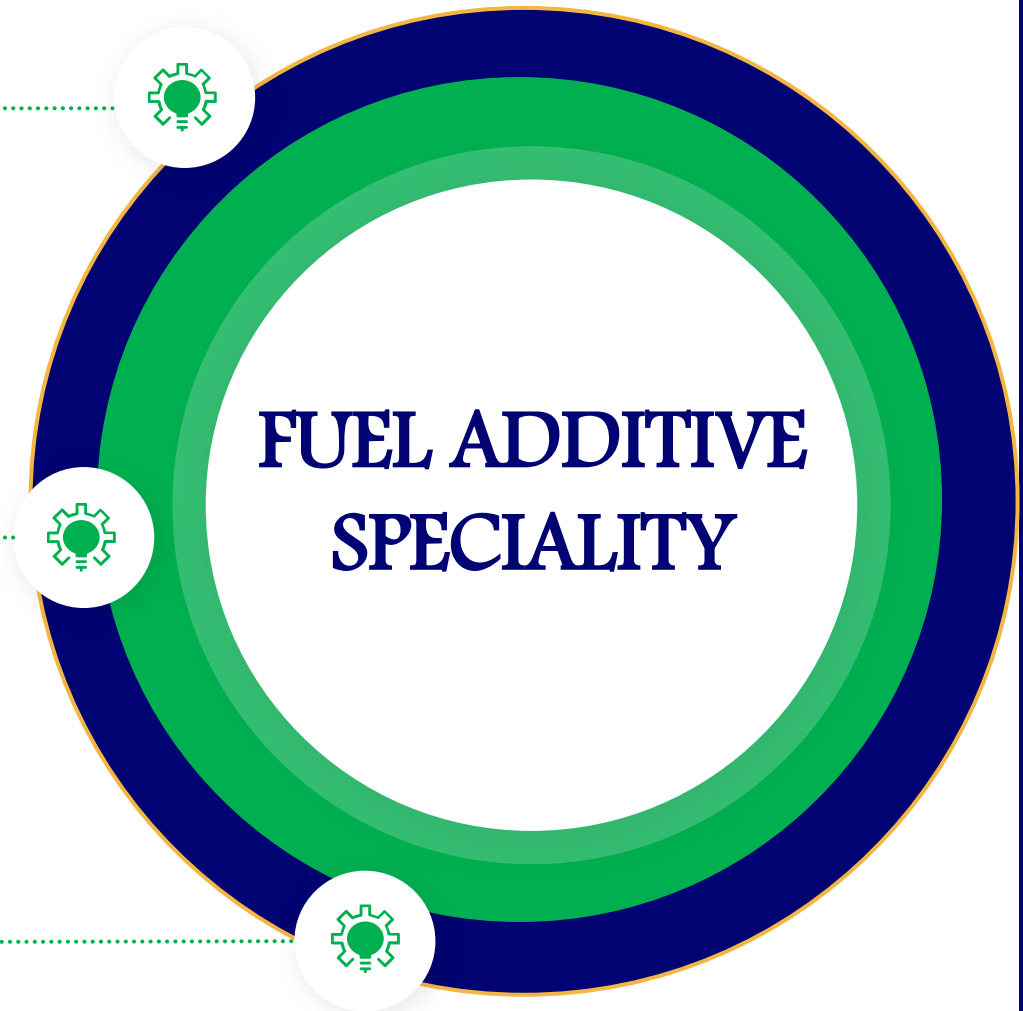

FOT Lubricity Improver Is A Special Blend Of Surfactants And Additives Made In The Sophisticated Laboratories In The USA For The Low Sulphur Fuel Oil. Unlike Traditional Products, This Formula Not Only Increases Lubricity But Also Maintains Fuel Stability, Inhibits Corrosion And Also Disperses Sludge!

An American-made Combustion Catalyst And Fuel Stabilizer Designed To Reduce Soot, Improve Combustion, Disperse The Sludge And Stabilize Fuel In Single Step, Provides Advanced Engine Performance Better Than Alternatives.

Made Using The American Tech, FOT Biocontrol Is Used To Treat Bacteria, Algae, Yeast And Other Microbes That Contaminate The Fuel, Oil And Cutting Oil And Stabilize The Fuel. Unlike Competition, Our Biocontrol Is Miscible With Oil, Preventing Any Damage To The System. No Reports That Any Microbe Has Ever Developed An Immunity To Our FOT Biocontrol.

SEWAGE TREATMENT SPECIALITY

Ready To Use Liquid Form Sewage Water Treatment American-made Formulation, This Formula Consists Of A Blend Of Aerobic Bacteria Designed To Eat And Consume The Contamination, Reducing The Risks Of Health Hazards & System Blockage, And Increasing Hygiene.

A Very Powerful Sewage Water Treatment American-made Formulation For Than All The Competition, This Formula Consists Of A Blend Of Aerobic Bacteria Designed To Eat And Consume The Contamination, Reducing The Risks Of Health Hazards & System Blockage, And Increasing Hygiene, Packed And Supplied In Small Water-soluble Bag. Powder Form Offers 8 Times The Strength And Performance For Faster And Efficient Biodegradation.

- SODIUM METABISULFITE
- SODIUM HYPOCHLORITE 12%

In Addition To Our Full Product Range, We Also Supply Industrial And Specialty Gases, Including Oxygen And Acetylene Refills, Nitrogen, Calibration Gases, As Well As Refrigerants Such As R404A, R407, R22, R134, And R417 Available In Both Disposable And Refillable Cylinders.

EXCELLENT QUALITY
ENVIROMENTAL ECOFRIENDLY

Test Kits

High-performance Test Kits, Tablets And Bacteria For Monitoring Water Quality Parameters.

WATER TREATMENT TEST KITS

High-performance Test Kit And Reagents For Monitoring Oil Condition And Contamination.

WATER-IN-OIL TEST KITS

Key Quality Highlight: The Test Kits Are Manufactured Under Stringent Regulatory Protocols And Advanced Quality Control Measures In The U.S.A, Ensuring Adherence To The Highest Industry Standards And Delivering Exceptional Analytical Accuracy In Results.

EXCELLENT QUALITY
ENVIROMENTAL ECOFRIENDLY

Test Kit (Water Test Kits)

TABLET-METHOD TEST KITS:

This Type Of Test-kit Uses Pre-measured Reagent Tablets To Give Quick Reliable Readings With Minimum Preparation.

- Boiler Water Test Kit
(p-Alkalinity, Chloride and pH values)
- Cooling Water Test Kit
(Nitrite, Chloride and pH values)
- Nitrite Test Kit
- Chloride Test Kit
- P-alkalinity Test Kit
- Hardness Test Kit
- Phosphate Test Kit
- Chlorine Test Kit
- Iron Test Kit

Tablet Replacement Nitrite, Chloride, P Alkalinity, M Alkalinity, Phosphate , Hardness

Test Kit (Water Test Kits)

Drop-Test KIT:

A UniClean America Original, Special Type Of Test Kit Developed In The U.S.A. That Measures Parameters Using Only A Drop Instead Of A Tablet, Making It Very Easier, Safe, Very Economical, Better Accuracy, Quick And Easy-to-use.

Our Available Testing Parameters Include:

- P Alkalinity Drop Test Kit
- Nitrite Drop Test Kit
- Chloride Drop Test Kit.
- Sulphite Test Kit
- Hydrazine Test Kit
- DEHA Test Kit

Test Kit (Bacteria DIP-SLIDES)

DIP-SLIDES TEST KITS:

Provides A Fast, Low-cost Way To Check For Bacterial Or Fungal Levels In Fluids Such As Water, Fuel, Coolants Etc. Without Sending The Samples To The Laboratory. Unlike Others, Uniclean America Offers A Versatile Range Of DIP-SLIDES Tailored For Specific Applications And Provides Faster Results Under Short Incubation Period!

Available DIP-SLIDES Include:

TTC/E.COLI: Allows Convenient Enumeration Of Aerobic Bacteria (TVC) Together With *E.COLI*, Coliforms And Pseudomonas Spp. Bacteria In A Single Test.

TTC/PDM: Total Viable Cell Count (TVC) Of Aerobic Microorganisms On The Nutrient/TTC Medium And Enumeration Of Pseudomonas Species On The Pseudomonas Differential Medium (PDM). PDM Differentiates Several Species Of Pseudomonas To Facilitate Enumeration Of Total Pseudomonas Species Present.

TTC/TTC: Standard Bacteria Test, Used For General Purpose Cultivation Of Organisms Which Can Be Obtained From Surfaces, Fluids Or The Air.

Test Kit (Potable Water Test Kit)

Specially Designed Test-kit To Offer Offshore Rigs And Sea Vessels A Monitoring Solution For All Types Of Essential Parameters With High Accuracy , It's A Complete Kit Made As Per Imo Regulation Standards , This Product Also Includes Special **DIP-SLIDES** For Testing Several Grades Of Bacteria And E. Coli

The Test Kit Has An Aluminum Brief-case Which Contains All Necessary Instruments For Measuring The Following:

- Chlorine Comparator Disc and Tablets
- PH Digital Meter
- Conductivity / TDS (Total Dissolved Solid) Digital Meter
- TTC Bacteria Test.
- Turbidity Check
- Temperature Meter
- Total Hardness Test
- E.Coli Coliform Test.
- *Pseudomonas* Species

Test Kit (Sewage Effluent Test Kit)

A Specially Designed High-accuracy Test That Checks The Quality Of The Treated Wastewater Before It Is Released Back To The Environment. An Essential Must-have Onboard To Ensure Water Meets Regulatory And Environmental Standards, Protecting Water Ways And Demonstrates Commitment To Public Health.

Our Tests Include Various Important Parameters Not Offered By The Competition, Which Includes:

- Permanganate Value
- Probable BOD, COD and TOC
- pH Value
- Turbidity (SS)
- Temperature

EXCELLENT QUALITY
ENVIROMENTAL ECOFRIENDLY

Test Kit (Oil Test Kit)

Exclusively Manufactured By Uniclean America, This Newly U.S. Developed Oil Test-kits Provide A Reliable And Accurate Indication About The Performance And Quality On The Engine-oil, Fuel, Lube Oil And Oil At Any Given Time On-site! Contains Special Instruments, These Test-kits Include Parameters Such As:

Oil Kit No. 5

- Water-in-oil Test
- Base Number Test
- Viscosity Test
- Spot Test
- Salt Test

Oil Kit No. 3

- Water-in-oil Test
- Base Number Test
- Viscosity Test

A Cleaner Solution, BN Reagent, And WIO Reagent Sets Are Also Available Individually.

For Best Accuracy And Dependable Results, Always Use Genuine UniClean America Reagents.

 **Houston, USA**
**Supplying Marine Chemicals Across
The Americas**

Our Houston Office Is The Central Hub For UniClean America's Operations Across North, Central, And South America. Strategically Located Near Major U.S. Gulf Ports, We Ensure Prompt, Reliable Delivery Of Marine Chemicals And Cleaning Solutions Tailored To Diverse Maritime Needs. From Ship Owners And Ship Management Companies To Shipyards, Dry Docks, And Chandlers, We Work Closely With Clients To Support Safe And Efficient Vessel Operations. We Also Serve Offshore Platforms, Marine Service Providers, Industrial Cleaning Contractors, Port Authorities, And Marine HVAC Or Water Treatment Installers. With A Knowledgeable Team And Bilingual Support In English And Spanish, We're Committed To Delivering Both Quality And Care, Every Step Of The Way.
